Question: What day of the month were you born?
(Example : 7 if you were born on the $7^{\text {th }}$ etc.).

## Procedure:

Show the participant the following set of cards.
Ask whether or not the participant can see his/her number on the any of the cards.
Ask the participant to reveal which letter (A, B, C, D, E) has his/her birth date.
Magically reveal the date of birth to the participant.

| 28 | 29 | 30 | 31 |

## How is this done?

Simply add the top left corner of the cards revealed by participant to obtain date of birth.

## Example:

Participant was born on a $17^{\text {th }}$
The participant will reveal cards $\mathbf{A}$ and $E$ have his birth date.
Add $1+16$ to reveal 17 to the participant!
