

Jack the GERM

1

Jack lives in your nose, on your hands, in your mouth, and almost any where you can touch with your hands.

3

You should wash your hands after

sneezing
or
coughing

eating

or playing

4

Jack cannot make you sick if you wash your hands well and use hand gel often.

5

Jack is a germ and he can make you sick. Jack lives in many places, even in your school!
